INSTRUCTION

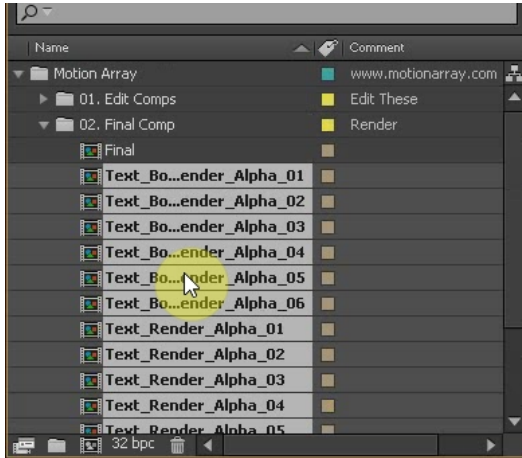

# 01 How to replace the text

Open the folder "Motion Array"-"Edit Comps"-"Text", open the composition "Text\_01..." and "Text\_Bottom\_01..." select the text and change it

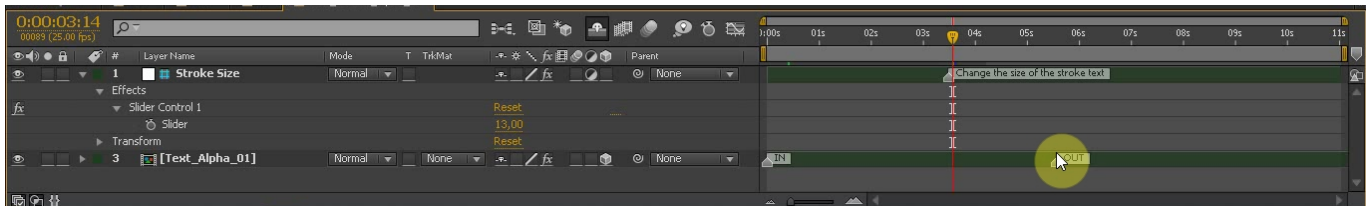

## 02 How to display text with an alpha channel

Open the folder "Motion Array" - "Final", select the desired composition  
Text\_Render\_Alpha\_0 .. or Text\_Bottom\_Render\_Alpha\_0 ...

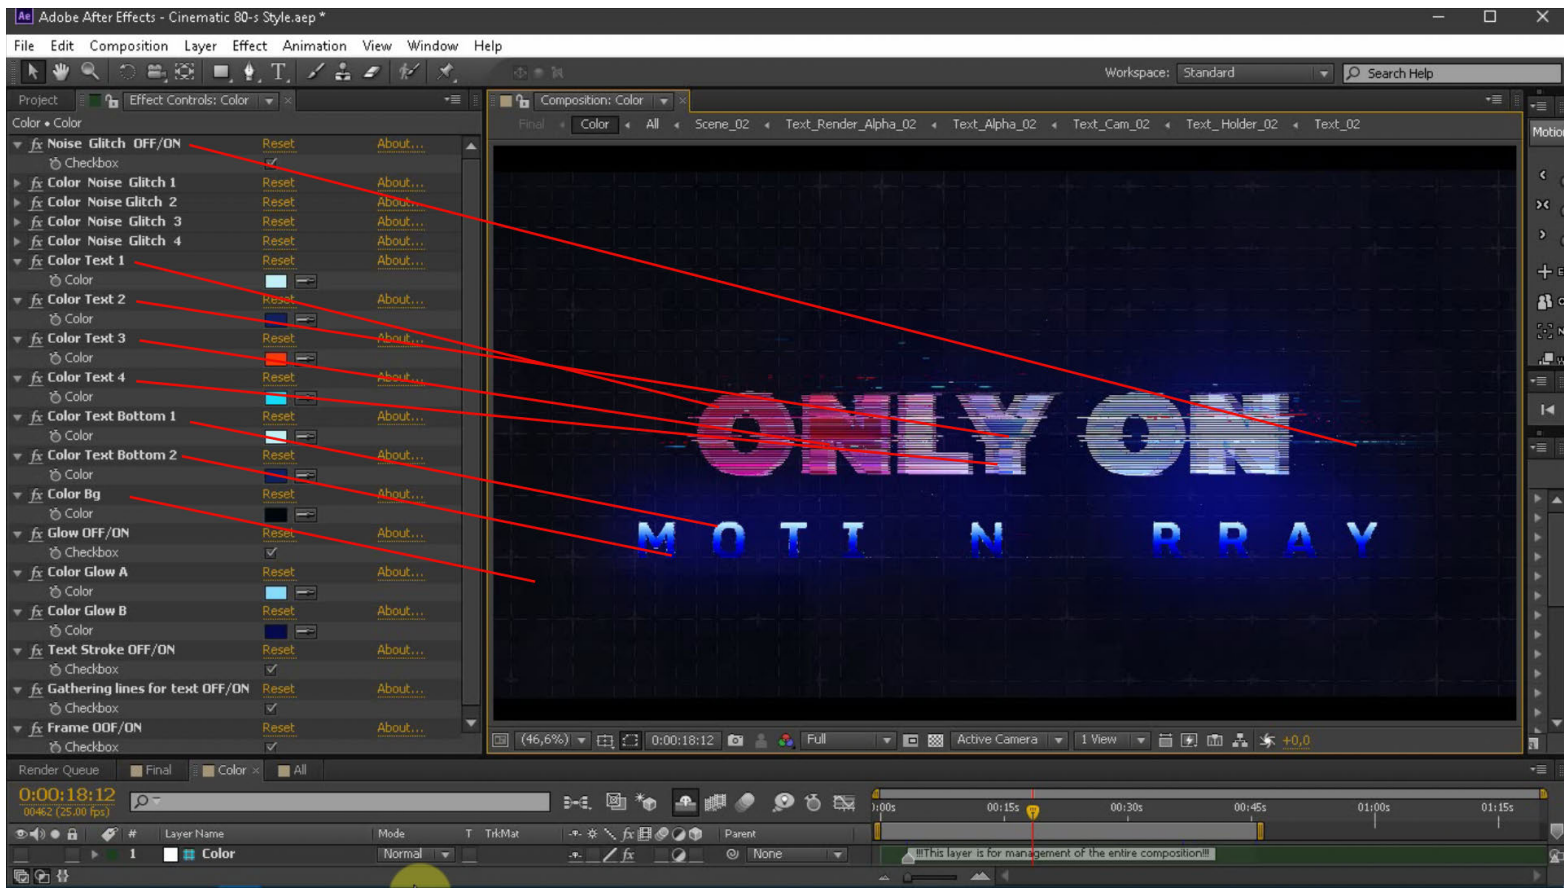

To change the duration of the composition, simply drag the "END" marker on the text layer

### 03 How to change the color

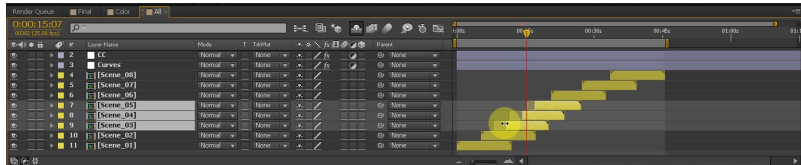

Select the layer called Color. Go to the "Effect Controls" panel and change the colors and others settings

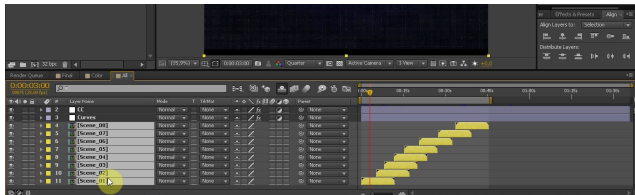

## 04 How to change the duration of the composition

Open the folder "Motion Array"-"Edit Comps"-"Duration", open the composition "All"

Select the compositions that are cropped. Extend them on the left side

Starting from the bottom "Scene\_01" with SHIFT clamped, we select all compositions called "Scene\_01-08"

Set the current time slider to 0 seconds

Go to Animation- Keyframe Assistant- Sequence layer

We put a tick and set the desired value ...

Attention, perform this operation only when the text layers are extended to the value you need
