

The Sensor Manager Plugin SDK, sample JSON converter needs rapidjson.
This release uses rapidjson Version 1.1.0

To get rapidjson:

1. Obtain a copy of the rapidjson source code from
<https://github.com/Tencent/rapidjson/tree/master/include/rapidjson>
2. Copy all files and folders from rapidjson to directly in /third-party/rapidjson

Important: The sample JSON converter uses rapidjson to parse JSON content, you may use another JSON parser if you choose. Adobe is not responsible for any vulnerabilities in rapidjson.
