### **Russiagate Has Been Defeated. Don't Allow 'Chinagate' To Sabotage the New Paradigm**

May 10 (EIRNS)--The revelations contained in the recently released transcripts of the Congressional hearings into the imagined collusion between Russia and President Donald Trump, and the claim that Russia interfered in the 2016 election by hacking and releasing Democratic Party emails, have fully confirmed what *EIR* has been documenting for the past three years--that the investigators, both in the Congress and in President Barack Obama's intelligence community, knew, from the beginning, that they were participating in a Goebbels-style Big Lie. That this effort was

orchestrated and directed by British MI6 Secret Intelligence Service has already been clearly documented.

But British intelligence is not giving up. Now it is China that the British are telling the Trump Administration they must confront and defeat, making up lies even more spectacular, and easily refuted, with the hope that repeating them often enough will succeed in causing a groundswell against Trump's intention to establish new and friendly relations with both Russia and China--viewed as an existential threat by the British imperial Lords in keeping the world permanently divided, East and West, with the U.S. serving as the "dumb giant" in fighting British imperial wars.

The Schiller Institute has demonstrated, in two historic conferences over April 25-26 and on May 9, that the cooperation between the U.S., Russia and China, which was the crucial alliance (with others) which defeated fascism in Europe and Asia, can and must be restored to meet the equally existential threat to mankind today. The keynote speeches by Helga Zepp-LaRouche, and the stirring presentations by leading representatives of Russia and China, as well as the focus on the urgent need to build a world health capacity to prevent an onrushing holocaust in Africa and Ibero-America, must be shared with men and women of good will in every part of the world, to provide hope and direction in winning this global fight.

Mrs. LaRouche has also held critical conference calls this weekend, first with over 80 youth from countries in the Americas, Europe, Africa and the Mideast, addressing the critical role of youth in bringing about the new system from out of the current crisis. Second, she spoke with farmers from the U.S., Argentina and Germany, addressing the rapidly escalating food emergency, threatening, according to the director of the UN World Food Program, former South Carolina Republican Gov. David Beasley, the death by starvation of *300,000 people per day* in the coming months, if emergency measures are not taken immediately, to stop the escalating bankruptcy of family farmers and the breakdown of the food supply chain internationally.

The question facing every human being at this moment of historic crisis was addressed by Helga Zepp-LaRouche's in closing her keynote to the Schiller Institute May 9 conference to commemorate the 75th anniversary of V-E Day:

"So, there are very concrete steps we can take. They may sound impossible and utopian, but the big question is, is mankind fit to survive? Can we create a basis, an order of international relations among nations which guarantees the durable survivability of the human species? I would like to have that question answered in a positive way. So, if we think about the heroes of the World Wars, especially World War II, and what it meant to defeat National Socialism, then if these lives were not sacrificed in vain, we better come back to the Spirit of the Elbe and settle this question of cooperation among nations for good."

## **U.S. POLITICAL AND ECONOMIC**

### **Russian Representative on the Importance of the Schiller Institute**

May 10 (EIRNS)-- Following their address on the topic of defining a new set of major power relations--including between Russia and the U.S.--at the April 25-26 Schiller Institute Conference, "Mankind's Existence Now Depends on the Establishment of a New Paradigm," Russian Federation officials again addressed the Schiller Institute conference on May 9, "75th Anniversary of V-E Day: Commemorate the Victory against Fascism with a New Bretton Woods System." With an extremely solemn tone, Dmitry Polyanskiy, the First Deputy Permanent Representative of the Russian Federation to the United Nations described May 9th as "a very sacred day for us." After outlining the horrible cost of the Second World War both to the Russian people and the whole world, he bluntly described the current rise and fostering of neo-Nazism today in parts of the West, and the connected project to rewrite the history of World War II to equate the Soviet Union and the Nazi regime.

He said, "Unfortunately, after the beginning of the '90s, there are trends which are very worrying, when there are countries that try to rewrite the

history of the Second World War, sometimes to change places between the victors and those who were the criminals during this war. We, in Russia, and in some of our neighboring states, are doing our best not to allow such an interpretation of history, which absolutely turns the whole course of the Second World War upside down. We are very much worried by these trends in some of our neighboring states, when there are Nazi collaborators who are now being respected as heroes, and when the monuments to the real heroes, the real Liberators, are being demolished...."

Mr. Polyanskiy praised Saturday's May 9th commemoration and the two Schiller Institute conferences, saying that they play an invaluable international role to "raise awareness" of specialists and experts, and to increase international understanding among peoples: "That's why conferences like yours are very important. They mobilize opinion, they raise awareness of specialists and of experts on this situation around the history of the Second World War, and they help people to understand better the sentiments and the moods in different countries of the world, including my country." At the end of a discussion early Saturday morning, as final preparations were being made for the Russian participation, one leading official sent a text to an *EIR* correspondent, "Congratulations and sincere thanks!!!"

Russian Ambassador to the Philippines Igor Khovaev also gave an emotional address, calling for nations to come together. He said, "I think that learning of the lessons of history, unfortunately, [is] not going on, but, late is better than never. So, it's time to get rid of our divisions, all kinds of obsessions. It's not time to create new enemies, especially imaginary ones. It's high time to be together and to fight shoulder to shoulder against the common enemy."

### **The 'Fauci-WHO-Gates-China-Big Pharma' Conspiracy Gets 1.6 Million 'Views,' Thousands of Responses**

May 10 (EIRNS)--There is a surge in the scope of the currently viral conspiracy theory, that National Institute of Allergy and Infectious Diseases Director Dr. Antonio Fauci, the World Health Organization

(WHO), and its Director-General Dr. Tedros Adhanom Ghebreyesus, Microsoft founder and multibillionaire Bill Gates, and Big Pharma are engaged in a plot with the Chinese Communist Party to cover up China's alleged responsibility for the coronavirus pandemic, aimed either at making money for Big Pharma through vaccines, or even intentionally at bringing down the Western economies so China can take over the world (as Tucker Carlson so eloquently put it). The surge was demonstrated by the 1,630,280 (and counting) views on a Fox posting about a Judicial Watch suit to obtain all correspondence between Fauci and the WHO, and 7,418 comments.

Judicial Watch President Tom Fitton explained to Fox Business reporter Lou Dobbs why his organization has filed the lawsuit on behalf of the *Daily Caller* on May 4. They are also seeking all records related to communications about WHO Senior Adviser to the Director-General Bruce Aylward and WHO Director Dr. Tedros. "It is of significant public interest to learn what WHO was telling our top medical officials about the coronavirus that originated in China," Fitton said.

The responses nearly all read like a programmed array of a political mobilization against China and the "conspirators." Examples:

"Him and Gates should be arrested for crimes against humanity"; "Dr. Fauci is a snake and I don't believe his analysis regarding WHO's assessment regarding China's motivation!"; "He's a globalist rat supporting population control thru vaccines"; "Fauci wasn't misled, he was part of this all from the start. He funded the Wuhan lab!"; "Fauci is a deep state troll, helping China."; "Dr. Fauci is a fraud and is responsible for millions of deaths, he has been working on this for the last 30ish yrs, since he stood behind President Ronald Reagan as one of his aids."; "NO VACCINATION OR MICROCHIP FOR ME, THIS IS THE WORK OF EVIL, THE WORKS OF THE BEAST."; "DR. FAUCI IS THE PROBLEM ! HE'S WORKING FOR CHINA AGAINST OUR COUNTRY."; "if you want to know the truth, look up judy mikovitz."; "I'm so happy reading the comments here! Americans are AWAKE! THANK GOD!"; "The country and world should never have been shut down. SARS

and H1N1 was worse. This is the NEW WORLD ORDER trying to take over." And so on.

### **Peter Navarro's Lies Keep Coming, While *Der Spiegel* Joins In**

May 10 (EIRNS)--The rabid anti-China fanatic Peter Navarro, now Trump's trade adviser, went on Fox News "Sunday Morning Futures" this morning to retail old and new lies, several of which have been publicly proven to be fabrications coming from the British Empire's intelligence agencies.

"China hid the virus from the world, hiding behind the shield of the WHO," he raved, "and as they did that they sent gleaming passenger jets--not into the rest of China--to places like New York and Milan, seeding the world with what would become a pandemic. They vacuumed up nearly all the protective equipment, including 2 billion masks, and today they are sitting on stockpiles of PPE [personal protective equipment], selling them at profiteering prices to some countries, and putting pressure on countries to deny the virus came from China."

After blaming all the problems in the U.S. on China, he went on: "Trump built the most powerful and beautiful economy in the world in three years, and the Chinese Communist Party took it down in about 60 days."

German weekly *Der Spiegel* added their own filth to the war propaganda against China, writing that according to the BND, Germany's foreign intelligence agency: "On January 21, China's leader Xi Jinping asked WHO chief Tedros Adhanom Ghebreyesus to hold back information about a human-to-human transmission and to delay a pandemic warning. The BND estimates that China's information policy lost four to six weeks to fight the virus worldwide," wrote Britain's *Daily Mail* tabloid today.

The WHO immediately released a statement calling the claim "unfounded and untrue."

## STRATEGIC WAR DANGER

### **Xinhua Commentary Warns Anti-China Attacks Are 'Major Strategic Error'**

May 10 (EIRNS)--A Xinhua commentary yesterday, headlined "China Boosts National Pride In Coronavirus Fight, But Not To Export 'Chinese model' " begins by noting: "It is a national consensus that China has put the domestic epidemic under control and the rising trend of imported COVID-19 cases has waned, while the order of work and life has resumed at a faster pace. For a country with 1.4 billion people, these are hard-won achievements worth of national pride."

According to the results of a national survey conducted by the Singapore-based research agency Blackbox Research, the Chinese people have expressed that they are very satisfied with their government's response to the COVID-19 crisis, and will continue to be responsive to any public health crisis in the future.

The commentary goes on to say, "Such courage to identify and fix governance shortcomings stands in sharp contrast to tactics adopted by some countries' politicians who attempt to cover up their incompetence and shift blames to others. As China's situation improves, these politicians are now fanning hatred on China and preaching dealing with China as a principal challenge. The attacks launched by Western politicians against China's political system, with the CPC [Communist Party of China] the ultimate target of their barrage, proves groundless and futile. It is a major strategic error and an out-of-date mindset to do so.

"China has no intention to change the current world order, nor is the country looking to impose its model on others around the globe. Rather, China upholds the vision of a community with a shared future for mankind and will continue to be committed to world peace, global development and international order."

## Russia's Virtual Immortal Regiment Celebration Draws Millions on Victory Day

May 10 (EIRNS)--While the real Immortal March did not take place on May 9, when Russia celebrates the victory over Nazism, because of the pandemic, there was a virtual march in which President Vladimir Putin also participated. "Regardless of whether we march in one formation or stay at home as today--our heroes always remain with us in our heart. And this will always be and they will stay with us forever," Putin said. He pledged that "we will still march across Red Square, paying tribute to our heroes." In the Immortal Regiment parades, it is common for family members to carry photos of their loved ones who fought and died in the war against fascism, marking their immortality.

The organizers of the Immortal March regiment reported that nearly 3 million people registered to participate in the virtual event. "As of 15:00 Moscow time on May 9, when we stopped to receive applications, we had 2,837,681 applications. Slightly less than 3 million," said spokeswoman Olga Baibulova.

There was also a videoconference of the Immortal Regiment in the United States in which Russian Federation Ambassador to the United States Anatoly Antonov participated. Antonov said no *force majeure* circumstances were able "to break the regiment's tight ranks," to upset celebrations on the occasion of the Great Victory's 75th anniversary and to prevent participants from remembering their ancestors' heroism, reported TASS today. "That victory was won at the cost of colossal sacrifices. The best of the best died a heroic death," Antonov said and asked everybody to observe a moment of silence.

The Russian diplomat praised the role of the Allies in the anti-Hitler coalition, who supported the Soviet Union by providing medical supplies, food and weapons. "Also, we remember the historic link-up of the Soviet and U.S. troops on the Elbe, which set an example of how peoples can unite for the sake of peace and stability," Antonov said. "That brotherhood in arms is something we miss so much in today's struggle with the new

challenges and threats," referring to the meeting of U.S. and Soviet troops at Torgau, Germany on the Elbe River on April 25, 1945. The true Allies swore an Oath of the Elbe of brotherhood on that joyful occasion.

Putin also addressed the May 9 graduation day for some 12,000 officers from the higher military schools in Russia.

## SCIENCE

### **Coronavirus Overview, Cases Top 4 Million, Russia Surpasses 200,000 Infection Rate**

May 10 (EIRNS)--According to the statistics website [Worldometer](#), as of May 10, the total number of cases is now about 4,134,253; a total of 281,147 deaths and 1,445,687 recovered. The United States leads in the total number of cases (1,350,194) and deaths (80,121). Russia has seen a huge spike of over 11,000 new cases in the last 24 hours, while the U.S. has had close to 2,000 new cases in the same period.

Among the hardest-hit countries, Belgium takes the lead with 747 deaths per 1 million population, followed by Spain (569 per million) and Italy (503 per million), with the micro-state of San Marino (located in north-central Italy, near the Adriatic Coast) reports a staggering 1,208 per million. The U.S. is currently around 242 per million; only four weeks ago, that number was 39 per million. China has 14 new cases and 3 deaths per million.

Michigan now ranks with the highest number of coronavirus deaths in the country many from prison deaths. The state ranks second behind New Jersey in prison deaths per capita.
