- An ethernet connection for controlling HyperDeck Studio models via the Blackmagic Design protocol

Installing HyperDeck Setup

Before installing the software, we recommend that you run "Uninstall HyperDeck" first.

The HyperDeck installer package installs:

- HyperDeck Utility
- Plug ins for supported third party applications via Thunderbolt

Third Party Software Support for macOS

- Quicktime - 10.5
- VLC - 3.0.8
- Adobe Premiere Pro CC 2020 - 14.0.3
- Final Cut Pro X - 10.4.8

- Avid Media Composer - 2019.12

Third Party Software Support for Windows

- Quicktime - 7.7.9
- VLC - 3.0.8
- Adobe Premiere Pro CC 2020 - 14.0.3
- Avid Media Composer - 2019.12

If you have installed the drivers prior to installing any of these applications, we recommend that you uninstall and reinstall the drivers. This will ensure that all relevant components are installed in their required locations.

Additional Information

Some applications may use third party code under license. For details please refer to the included "Third Party Licenses.rtf" document.
